

It shall be the policy of the Board to maintain memberships in the New York State School Boards Association. Experience has proven that this membership provides a great amount of assistance with essential informational programs, such as legislation, school management, and educational trends. This membership also affords opportunities for participation with other schools of the state in solving common problems, learning from each other, and pooling resources for the benefit of all.

The Superintendent may recommend additional memberships determined to be of value to the school district. The Board will consider and act upon these additional recommendation as they are made.

LEGAL REF. Educ. Sec. 1618

Date of Manual Adoption: July, 1998
Johnson City Central School District, Johnson City, New York
