

The Board views a system of honor rolls as additional means for encouraging goal setting by students and for providing recognition of students who have achieved those goals.

Honor rolls shall be used in grades 6-12. The Superintendent shall establish the minimum achievement level for all honor rolls and such determination may be subject to Board approval. Students shall be thoroughly informed of the honor roll system and carefully instructed to insure an understanding of the specific grades and methods used to compute the honor roll formula.

Building principals shall promote public recognition of students who have attained honor roll status.
