

The Board of Education directs that assignment of students to schools and classes be consistent with the best interests of students and the best use of the resources of the district. The Board also recognizes that diversity in school environments has been shown to have a positive impact on student achievement. Such diversity can be on the basis of race, ethnicity, sex and/or gender, religion or religious practice, disability, socioeconomic status, language, neighborhood, academic achievement, and/or academic potential. In addition, schools must prepare students for a future in which they interact with people from all backgrounds. While some aspects of student diversity are outside the scope of the Board's control, the Board aspires to prevent student isolation where possible. This does not, however, prevent the district from placing students into classes based on academic ability when it's in the best interest of those students.

Assignment of students to schools and classes may be based on current district population patterns, enrollment projections, building capacity, educational programs, students' educational needs, transportation requirements, demographic factors such as those listed in the paragraph above and the presence of diversity where possible.

#### Assignment to Schools

Periodically, the Board will review the status of enrollment in the district's schools to ensure that the goals of this policy are being met. If the goals are not being met, the Board may solicit input from stakeholders, including but not limited to administrators, teachers, staff, parents and students, to assist in determining changes that could be made to the school assignment process that better aligns with this policy.

#### Assignment to Classes/Teachers

In assigning students to classes/teachers, the following criteria shall be considered: age, social and emotional maturity, demographic characteristics and academic achievement in relation to individual ability, in order to assure appropriate assignments. It is the goal of administration to create classes that can productively learn together.

#### Parent/Guardian Requests

The Board recognizes that parents/guardians may wish to make requests as to school, and/or class/teacher assignments. Final decisions regarding assignment of students to schools and classes/teachers rests with the district.

Date of Manual Adoption: October 22, 2013

Johnson City Central School District, Johnson City, New York
