

The Board of Education views purchasing as serving the educational program by providing necessary supplies, equipment and related services. Purchasing will be centralized in the business office under the general supervision of the Purchasing Agent designated by the Board.

It is the goal of the Board to purchase competitively, without prejudice or favoritism, and to seek the maximum educational value for every dollar expended. Competitive bids or quotations shall be solicited in connection with purchases pursuant to law. The General Municipal Law requires that purchase contracts for materials, equipment and supplies involving an estimated annual expenditure exceeding \$20,000 and public work contracts involving an expenditure of more than \$35,000 will be awarded only after responsible bids have been received in response to a public advertisement soliciting formal bids. Purchases of the same commodity cannot be artificially divided for the purpose of avoiding the threshold. Similar procurements to be made in a fiscal year will be grouped together for the purpose of determining whether a particular item must be bid.

The district's purchasing activity will strive to meet the following objectives:

1. to effectively supply all administrative units in the school system with needed materials, supplies, and contracted services;
2. to obtain materials, supplies and contracted services at the lowest prices possible consistent with the quality and standards needed as determined by the Purchasing Agent in conformance with state law and regulation and in cooperation with the requisitioning authority. The educational and physical welfare of the students is the foremost consideration in making any purchase;
3. to ensure that all purchases fall within the framework of budgetary limitations and that they are consistent with the educational goals and programs of the district;
4. to maintain an appropriate and comprehensive accounting and reporting system to record and document all purchasing transactions; and
5. to ensure, through the use of proper internal controls, that loss and/or diversion of district property is prevented.

Opportunities shall be provided to all responsible suppliers to do business with the school district. Suppliers whose place of business is situated within the district may be given preferential consideration only when bids or quotations on an item or service are identical as to price, quality and other factors. Purchases will be made through available cooperative BOCES bids, state contracts of the Office of General Services or county contracts whenever such purchases are in the best interests of the district. In addition, the district will make purchases from correctional institutions and severely disabled persons through charitable or non-profit-making agencies, as provided by law.

Cooperative Purchasing

The Board of Education will consider participation in cooperative bidding/purchases with other school districts, BOCES or other governmental agencies whenever feasible and legal for the various needs of the District.

Best Value

Effective January 27, 2012, General Municipal Law (GML) Section 103 was amended to permit a school district or BOCES to award purchase contracts (including certain service contracts) in excess of twenty thousand dollars (\$20,000) on the basis of "best value", rather than on the basis of the lowest responsible bid, providing the school district adopts a resolution at a public meeting. On January 14, 2014, the Board of Education adopted the required resolution authorizing the District to make best value awards. Therefore, the Board of Education may ~~also~~ approve "best value" bid award recommendations on an individual bid basis at a scheduled public meeting in accordance with the District's best value award procedures. A best value award is one that optimizes quality, cost and efficiency, typically applies to complex services and technology contracts and is quantifiable whenever possible.

"Piggybacking" Law - Exception to Competitive Bidding

On August 1, 2012, and then again on November 13, 2013, General Municipal Law (GML) Section 103 was amended to allow school districts to purchase certain goods and services (apparatus, materials, equipment and supplies) through the use of contracts let by the United States or any agency thereof, any state, or any political subdivision or district therein if such contract was let to the lowest responsible bidder or on the basis of best value in a manner consistent with the rest of GML section 103 and made available for use by other governmental entities.

This "piggybacking" is permitted on contracts issued by other governmental entities, provided that the original contract:

- a) Has been let by the United States or any agency thereof, any state (including New York State) or any other political subdivision or district therein;
- b) Was made available for use by other governmental entities and agreeable with the contract holder; and
- c) Was let in a manner that is consistent with GML Section 103 and is not in conflict with other New York State laws.

The Board of Education is authorized to piggyback onto certain contracts as authorized by GML Section 103. This may include participation in, and exploration of, national or regional cooperative purchasing networks which may facilitate piggybacking (“Networks”). The District Assistant Superintendent/designee, is authorized to register for these Networks on behalf of the District and investigate piggybacking opportunities. However, each expenditure by the District that would constitute piggybacking under this policy must be separately reviewed and approved by the Board of Education for conformance with GML Section 103 and other applicable laws.

In accordance with law, the district shall give a preference in the purchase of instructional materials to vendors who agree to provide materials in alternative formats. The term “alternative format” shall mean any medium or format for the presentation of instructional materials, other than a traditional print textbook, that is needed as an accommodation for a disabled student enrolled in the district (or program of a BOCES), including but not limited to Braille, large print, open and closed captioned, audio, or an electronic file in a format compatible with alternative format conversion software that is appropriate to meet the needs of the individual student.

The Board is also aware of the need to reduce exposure of students and staff to potentially harmful chemicals and substances used in cleaning and maintenance. In accordance with law, regulation and guidelines set forth by the Office of General Services (OGS), the district will purchase and utilize environmentally sensitive cleaning and maintenance products in its facilities whenever feasible. Cleansers purchased must, first and foremost, be effective so that the district may continue to purchase non-green products as necessary. Environmentally sensitive cleaning and maintenance products will be procured in accordance with standard purchasing procedures as outlined in this policy and regulation.

Competitive Bidding

Purchase contracts and public works contracts subject to competitive bidding will be awarded to the lowest responsible bidder, however, the Board authorizes that purchase contracts may be awarded on the basis of best value, as defined in State Finance Law §163.

In addition, the Board authorizes the receipt of sealed bids for purchase contracts in electronic format, pursuant to the provisions of General Municipal Law §103(1) which addresses proper documentation, authentication, security, and confidentiality of electronic bids.

The district shall comply with the requirements of General Municipal Law §103-g, which prohibits, with few exceptions, competitive bidding contracts with entities that invest significantly in the Iranian energy sector, as outlined in the accompanying regulation.

Competitive bidding, even if the dollar value of the purchase meets the threshold established above, is not required in the following circumstances:

1. emergencies where time is a crucial factor;
2. procurements for which there is no possibility of competition (sole source items); or
3. professional services that require special skill or training
4. when using purchasing cooperatives

Purchasing when Competitive Bidding Not Required

Goods and services which are not required by law to be procured by the district through competitive bidding will be procured in a manner so as to ensure the prudent and economical use of public monies, in the best interests of the taxpayers, to facilitate the acquisition of goods and services of maximum quality at the lowest possible cost under the circumstances, and to guard against favoritism, improvidence, extravagance, fraud and corruption.

Alternative proposals or quotations will be secured by requests for proposals, written or verbal quotations or any other appropriate method of procurement, except as permitted by state law for procurements:

1. under a county contract;
2. under a state contract;
3. under a federal contract;
4. under a contract of another political subdivision;
5. of articles manufactured in state correctional institutions; or
6. from agencies for the blind and severely disabled.

The district will provide justification and documentation of any contract awarded to an offeror other than the lowest responsible dollar offeror, setting forth the reasons why such award is in the best interests of the district and otherwise furthers the purposes of section 104-b of the General Municipal Law.

General Purchasing Provisions

The Superintendent of Schools, with the assistance of the Purchasing Agent, shall be responsible for the establishment and implementation of the procedures and standard forms for use in all purchasing and related activities in the district. Such procedures shall comply with all applicable laws and regulations of the state and the Commissioner of Education.

No Board member, officer or employee of the school district shall have an interest in any contract entered into by the Board or the district, as provided in Article 18 of the General Municipal Law.

Comments will be solicited from those administrators involved in the procurement process before enactment of the district's policies regarding purchasing and from time to time thereafter. The policies must then be adopted by Board resolution. All district policies regarding the procurement processes will be reviewed by the Board at least annually.

The unintentional failure to fully comply with the provisions of section 104-b of the General Municipal Law or the district's policies regarding procurement will not be grounds to void action taken nor give rise to a cause of action against the district or any officer or employee of the district.

Date of Adoption: September 12, 2017
