

Support services are essential to the successful function of a school system. Management of auxiliary operations is therefore an important responsibility of the district administration. It should be remembered, however, that education is the district's central function, and all support services shall be provided, guided, and evaluated by this requirement.

In order to provide support services that are truly supportive of the educational program, the Board establishes three broad goals:

1. To provide a physical environment for teaching and learning that is safe and pleasant for students, staff, and public.
2. To provide safe transportation and nutritious meals for students who use their services.
3. To provide timely, accurate and efficient support services that meet the needs and promote the goals of the school district.
