

The Board of Education recognizes its responsibility to maintain and improve discipline and to ensure the safety and welfare of its staff and students on school transportation vehicles.

After having carefully considered and balanced the rights of privacy with the district's duty to ensure the discipline, health, welfare, and safety of staff and students on school transportation vehicles, the Board supports the use of surveillance devices on its school buses.

Surveillance devices may be used to monitor student behavior on school vehicles transporting students to and from school or extracurricular activities.

Students in violation of bus conduct rules shall be subject to disciplinary action in accordance with established Board policy and regulations governing student conduct and discipline.

The district shall comply with all applicable state and federal laws related to student records when such recordings are considered for retention as part of the student's record.

Recordings shall be used primarily for the purpose of evidence for disciplining of students. However, the district may use such recordings for any other purpose it deems appropriate.

The Superintendent of Schools is directed to develop regulations governing the use of surveillance devices in accordance with the provisions of law and established Board policies and regulations.
